

**Updates to Ranking Spreadsheet and Funding Availability
through the FY 2019 HUD CoC Program NOFA
Out-Wayne County CoC**

Revised September 11, 2019

Below are changes that affect some of the final funding amounts available for renewal projects, new or expanded projects, and the planning grant. They replace the funding amounts that had been listed in the Out-Wayne CoC Request for Proposals for the FY 2019 HUD CoC NOFA Local Funding Competition as issued on May 23, 2019 and then revised following the release of the FY 2019 HUD CoC Program NOFA and posted to the CoC website and distributed by e-blast on August 21, 2019.

The final revision to the ranking spreadsheet does not change the position of ranking of any renewal or new projects. Rather, there is a small increase, in the amount of \$6,468, to the Annual Renewal Demand (ARD) for the FY 2019 local competition. There is one impact of this increase in the ranking spreadsheet that is important to note, and that is a slight adjustment to the one renewal grant that is partly funded through Tier 1 and partly funded through Tier 2 (there is a small increase in the amount funded through Tier 1).

The increase in the ARD came about from the process of confirming the amounts for each renewal in the Grant Inventory Worksheet (GIW) with HUD. A change had been sought for one renewal grant when HUD was updating the GIW that would result in a small decrease to the renewal amount. But although HUD approved the change to the GIW, subsequently HUD provided guidance that the change to the grant must occur through the process of a grant modification and not through a modification of the GIW. HUD did not undo the change to the GIW and as a result, for one renewal the amount of the request being entered into e-snaps is higher than the grant amount listed on the GIW. This increases the ARD for the Out-Wayne County CoC.

Guidance from HUD has clarified that the ARD is based upon the actual amounts of renewal funding that is being requested through submissions in e-snaps even though there is a discrepancy with the ARD as listed on the GIW or in the ARD report published by HUD. HUD does reserve the right to make adjustments to renewal grant amounts upon calculating final amounts at award or at the time of the grant agreement.

Because of the discrepancy between the grant amounts listed on the GIW and what is being entered into e-snaps, the actual ARD for the Out-Wayne CoC will be higher than is shown on the GIW or the report published by HUD listing the ARD amounts for all CoC's. The amount of the Tier 1 and Tier 2 and will also be slightly higher when recalculated to account for the actual submissions of renewals in e-snaps.

The amount of the CoC Bonus will be slightly lower due to the calculation formula HUD has instituted this year and is explained on the page with the updated funding amounts. The total of CoC Bonus funding being requested by the Out-Wayne County CoC does not exceed the reduced amount available so there is no impact to applications utilizing CoC Bonus funding approved for inclusion in the ranking spreadsheet and Priority Listing.

The process for consideration of the change to the renewal grant noted above, and the steps the CoC should take to address the change in the ARD, is based upon guidance AppelWorks sought from HUD.

The updated ARD, Tier 1, Tier 2 and CoC Bonus figures are listed on the next page. The change in the ARD does not affect the amounts of the DV Bonus or Planning Grant because those amounts are based on the Final Pro Rata Need (FPRN).

An updated ranking spreadsheet will be posted to the Out-Wayne County CoC website and distributed by e-blast.

**Funding Availability for the Out-Wayne County CoC
through the FY 2019 HUD CoC Program NOFA**

Revised September 11, 2019

FPRN (Final Pro Rata Need): \$6,723,024 (no change)

ARD (Annual Renewal Demand): \$4,051,675 (an increase of \$6,468)

Tier 1: \$3,821,775 (an increase of \$6,080)

Tier 2: \$897,737 (\$229,900 for the difference between ARD and Tier 1, plus the CoC Bonus.
There is an increase of \$388 when calculating the difference between the ARD and Tier 1)

CoC Bonus: \$667,837 (a decrease of \$1,617)

DV Bonus: \$672,302 (no change)

CoC Planning: \$201,691 (no change)

* The changes noted above in funding are calculated between the updated ARD shown in this document and the ARD as shown by HUD in the GIW and the calculation of funding amounts in HUD's ARD Report

How HUD Calculates Funding Amounts

FPRN - Estimate by HUD of the amount of program funding that will allow a CoC to effectively address homelessness in its geographic area

ARD - the total of all program grants eligible for renewal for a CoC

Tier 1 - Based on 100% of the amount of funding for first time renewals plus 94% of the funding for all other renewals.

Tier 2 - The amount of ARD minus Tier 1, plus the CoC Bonus

CoC Bonus - In the FY 2019 CoC Program NOFA, HUD offers two formulas for calculating the CoC Bonus. For the Out-Wayne CoC, the higher amount between the two formulas is derived by subtracting the ARD from the PPRN, and then calculating 25% of that amount

DV Bonus - 10% of FPRN

CoC Planning - 3% of FPRN
